

What is BrainBrix?

BrainBrix is a new kind of logical puzzles, similar to Sudoku. The rules are very simple and there are many exciting variations.

The rules of BrainBrix

Each complete group of seven honeycomb shaped blocks holds a number and they must contain all of the numbers from 1 to 7. The teaser on the right contains ten groups, which are laid on top each other. The first group is marked in grey. The black block is an obstacle that does not belong to any of the groups. Which numbers are missing from the empty blocks?
